Supplier Corrective Action Plan (Simulated)

Supplier Performance Review

Supplier: **Supplier 4 (Simulated)**

Review Period: **CY 2025**

Executive Summary

Monthly supplier performance monitoring identified a decline in delivery performance over the review period. The supplier failed to meet agreed service level expectations for On-Time Delivery and Fill Rate, increasing the risk of inventory shortages and production disruption.

KPI Performance

KPI	Actual	Target	Status
On-Time Delivery	19.35%	≥30%	Below Target
Fill Rate	92.84%	≥95%	Below Target
Average Delivery Delay	3.33 Days	≤2 Days	Above Target

Observations

Analysis indicates:

- Increasing delivery variability.
- Multiple late deliveries during the review period.
- Reduced order fulfillment consistency.
- Increased operational risk for downstream production planning.

Possible Root Causes

- Supplier production capacity constraints.
- Raw material shortages.
- Transportation delays.
- Customs clearance issues.
- Inaccurate demand for communication.

Recommended Corrective Actions

Action	Owner	Timeline
Weekly supplier performance review	Procurement	Immediate
Improve demand communication	Planning Team	2 Weeks
Review transportation schedules	Logistics	2 Weeks
Increase safety stock temporarily	Inventory Planning	Immediate
Reassess supplier performance after one month	Procurement	30 Days

Expected Outcome

Implementation of the corrective actions is expected to improve supplier reliability, reduce delivery variability, and restore KPI performance to agreed service levels.
